

Main

Range	Masterpact
Product or component type	Application
Application description	Trip fault WFC
Range compatibility	Masterpact MTZ1 circuit breaker Masterpact MTZ2 circuit breaker Masterpact MTZ3 circuit breaker
Service description	Sampling period of 512 micro seconds in case of trip of LSI or G protection Allows to log automatically five cycles of phase and neutral currents Records the following status: circuit breaker open/closed/trip and ZSI signals Display one cycle before the fault and 4 cycles after
Service benefits	Help to understand the potential damage on the installation Support analysis of global behaviour of the circuit breaker in the power system Help to understand the nature and gravity of the fault (amplitude and duration)
Energy management	Diagnostics and maintenance ,crisis management (option)

Complementary

Software name	EcoStruxure Power Device
